Thank you for the email. We are not looking for fire or past disaster related history but the ask is what would you want in the lobby of fire station and the training room for the public to see that is unique to Otsego. What images would be unique to Otsego? Round barn? School houses? Mississippi? That type of stuff and where are these images that we can borrow to reproduce

Mike Scott

Interim Fire Chief

Subject: Otsego History

Good afternoon Chief Scott,

I spoke with CM Tanner today regarding the Heritage Preservation Commission researching Otsego history for possible use at the Fire Station.

The Heritage Preservation Commission meets on Tuesday, March 10th and their agenda needs to be prepared by March 5th. Can you clarify the scope of history your are looking and a deadline of when needed?

Thank you in advance.
